Announcement

- Physical OEO dev meeting 22/23. February 2024 in Hannover or Kassel

Organisational

- Template - Example Topic [Name]
 - <https://github.com/OpenEnergyPlatform/ontology/wiki/oeo-dev-meeting-etherpad-template>
 - Note and comment
- Check the open PR: <https://github.com/OpenEnergyPlatform/ontology/pulls>
- From oeo-dev meetig 64:
 - OEO licence: input from latest Oeo-sc meeting 2023-08-10 [MS]

- current licence is cc0
 - recommendation from oeo-sc:
 - dual licensing with both cc0 and MIT
 - see also: <https://doi.org/10.5281/zenodo.7937197>
 - reason: MIT prevents also patents
 - task for oeo-dev: confirm the decision and add the dual licence
 - will the MIT just be added to oeo or how does it work?
 - is there an overlap between MIT and cc0?
 - are there any risks, also concerning data protection? ask a license lawyer?
 - plan: look more into it and postpone decision until the next dev-meeting 21.09.2023
 - Do we have an issue?
 - A good point for adding the MIT license is the 2.0.0 release
 - Ask Till Jäger? <https://jbb.de/anwaelte/dr-till-jaeger/> How to finance?
 - @Uwe fragt erst mal in der KIT Rechtsabteilung nach
 - for future: contributing agreement, in case licence changes
